1. Print the pages 1-13 on at least 80 gsm paper (I recommend 100 or 125 g/m²).

2. Print the pages 14-15 on card stock (paperboard).

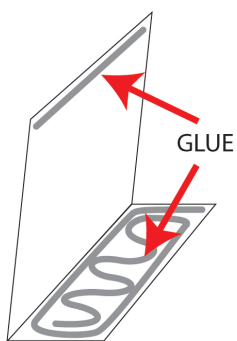

3. Cut out the pieces of the base of the calendar.

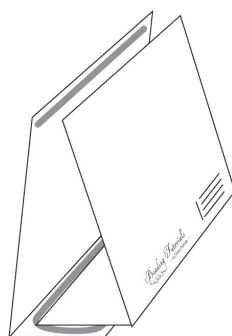

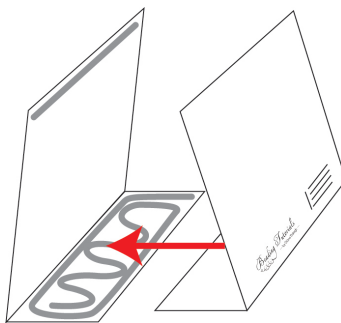

4. Fold up the bottom part of each base.

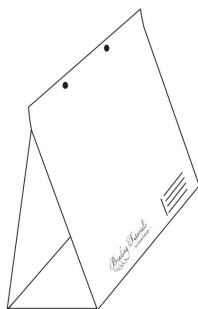

5. Put some glue on one half of the base, to that part you just folded up. Put a thin strip of glue on the top of the base (on the inner side).

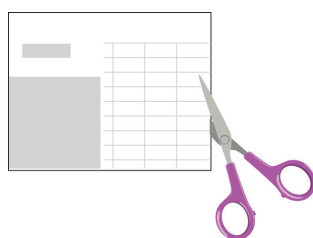

6. Join the 2 pieces of the base, and squeeze the bottom part.

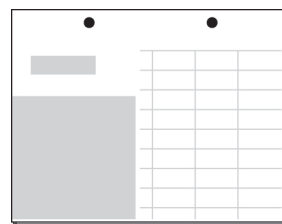

7. Join the top parts of the base, and squeeze them. Wait 4-5 minutes for the glue to dry. Punch 2 holes into the top of the base where marked

8. Cut out the pages of the calendar.

9. Punch holes into all pages where marked.

10. Pass through the holes of the pages and the base with a satin ribbon or a cord. Tie the ribbons, but don't tie them too tight. Leave some place for the scrolling of the pages.
